

# PTF Training

## Training for a Safe Future

A part of the OAMPS Group of Companies, PTF Training and Consulting is a specialist in providing training and consultancy services to the Petrochemical Industry, its customers, suppliers and contractors.

PTF has provided specialist training and consultancy to the Petroleum Industry for over twenty years and has trained thousands of delegates and organises hundreds of training days each year both in the UK and abroad.

All our services are delivered by in-house specialists supported by a network of associates who are all experts in their own fields and have practical in-depth experience of the industry. Our services are all designed to meet current legislative requirements relating to those involved with the storage and distribution of petrochemicals.

**“The trainer was very engaging with an excellent depth of knowledge about the industry and the unique operating procedures. He developed an excellent rapport with the drivers, thereby ensuring that they were all engaged in the process”**

Comments from recent JAUPF FPS Auditor report.

# Some of our courses

## ADR Driver Training

'Accord Dangereuse Routiers' (ADR). Requires drivers of hazardous goods vehicles to attend a formally recognised and approved training course every five years. Our SQA accredited initial & refresher courses are delivered nationwide.

## CPC Driver Periodic Training

PTF are a JAUPPT accredited training provider for Driver CPC Periodic Training. A mixture of classroom and in cab training provides a versatile approach to meeting training requirements whilst minimising business interruption.

## Hazard Awareness

Legislation requires that all personnel involved in carriage of dangerous goods are trained to enable them to safely discharge their responsibilities. The training must be formally documented with refresher training being carried out on an approved training course regularly.

## Safety Passport Training

A commonly recognised and validated standard acknowledged and supported by the HSE and petroleum industry, required by contractors working on retail petrol station sites. Our Safety Passport Training Courses are SPA accredited.

## BTEC Advanced Diploma Hazardous Goods Vehicle Operation

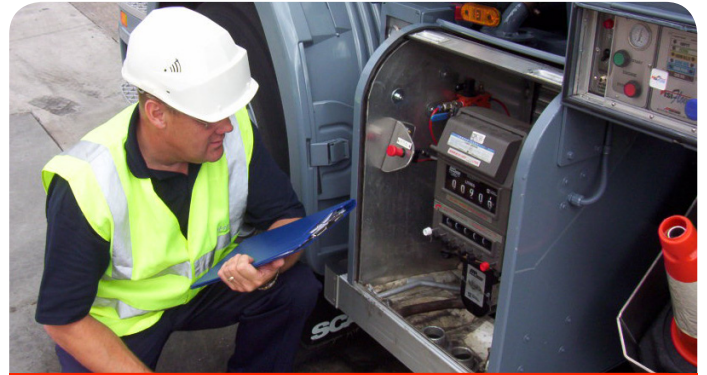

A structured tool for all ADR personnel actively involved in the distribution of dangerous goods and hazardous products. A motivational and development process to enhance existing skills of key staff.

## BTEC Advanced Diploma in Oil Depot Operation

A structured tool to assist operators of oil storage depots and terminals prove the competence of their operational personnel. A motivational and development process to enhance existing skills of key staff.

## Competent to Receive Petrol Deliveries

A bespoke petroleum industry 1 Day training course acknowledged by fuel suppliers and forecourt / filling station licensees. Focusing on forecourt personnel ensuring they are fully competent to receive petrol deliveries.

### Case Study:

PTF Training provided me with an ADR training course at our premises. The training was professional, informative and very interesting.

The trainer's rapport with the group was excellent which made for lively interaction amongst all delegates. It also helped me to better understand the course information and content.

I thoroughly enjoyed it!
