

# ENVIRONMENTAL CONTRACTORS

Our relationship with UK Spill puts us in a unique position to understand your business; and our commitment to these associations means we provide a unique insurance solution for each and every member.

We won't just arrange standard commercial insurance for you, our core package includes cover for risks unique to environmental contractors, such as:

- Cover for confined space work
- No depth limit
- Statutory environmental cover
- Own-site clean-up costs
- Property being worked upon

We can also arrange cover for:

- Gradual pollution cover for underground tanks
- Tools of the trade

We think it's important to be easy to do business with so we don't require annual declarations; plus, clients of OAMPS Hazardous Industries will automatically benefit from Level 2 & 3 Environmental Response Service in the event of a spillage 24/7.

We can also offer Level 1 Environmental Response Service at a discounted rate and our clients can access specialist driver training in ADR and CPC at a discounted rate via our parent company.
