

# ENVIRONMENTAL TANKERS

For the past decade we have been providing specialist insurance services to those involved with environmental tankers in the drainage sector, this puts us in a unique position to understand your business and provide the right cover for your needs.

Our expertise means that numerous contractors feel secure in the knowledge that should they be unfortunate enough to have an accident, help is on hand 24/7 because clients of OAMPS automatically benefit from Level 2 & 3 Environmental Response Service in the event of a spillage.

We also offer Level 1 Environmental Response Service at a discounted rate and our clients can access specialist driver training in ADR and CPC at a discounted rate via our parent company.

## WHAT TYPE OF BUSINESSES DO WE WORK WITH?

We provide complete insurance solutions for businesses ranging from single vehicle operators to major companies, on conventional or bespoke non-conventional programmes
